To All Who Love America: **Dear President McCallahan,**

Greetings! No one can dispute how truly important legacy is, for its very essence is rooted in the celestial! Legacy is an ideal idea. A prudent person only sees legacy in its original cast which is only positive.

For one to adopt the ideal idea of creating a legacy is certainly admirable. We posit that most people just begin a life's work just infusing it with a general purpose and dedication without a thought about creating a legacy. Later on, when milestones have been accomplished, utility has been established, and "ambulatory" assistance and access has been given—declarations of legacy start to emerge.

Legacies can be viewed in both directions when looking at the past or looking at the future. Legacies can be personal or massive renderings that are all inclusive.

When it comes to legacy planning, we posit that only the quintessentially gifted start out with creating the ideal idea of a legacy. Legacy planning is a celestial undertaking that is need based. When there is a massive need, we posit that circumstances conspire to create a massive legacy.

In the history of the United States of America, there has arisen no greater need now than a life affirming and instant legacy which solves all of America's massive economic problems or crises. How can this be done--accomplished? It requires the following: 1) Leadership, 2) Followship—all the people working together, and 3) A massive infusion of cash. Please see the attached press release regarding the new source of funds which has been identified.

We are writing to you and your organization because we are hopeful that you all will embrace and adopt the ideal idea of Saving America Now!

We posit that any university or organization that adopts the ideal idea of Saving America Now!—Will go down in history as the greatest university or organization respectively in the history of the world! Why?--Because real world applications were created that solved the economic crisis that if it had gone on unsolved would have destroyed the way and quality of life in America and the rest of the world as we know it.

Any organization that adopts the ideal idea of Saving America Now!—Can be virtually assured of a massive perpetual endowment that will help their respective constituencies and support society's infrastructure for all of the future.

If this great country of ours is worth saving, then let's all work together to save America Now! Save America Now! Save America Now!

[New Source of Funding Identified!]

A new source of funding has been identified! These funds will end the attack of "financial terrorism" which is poised to destroy America economically, and have a substantial negative effect on the rest of the world. The evidence of "financial terrorism" is plain: record number of housing foreclosures, failing banks, excessive gas and energy costs, and stagflation. Additionally, an 11 trillion dollar mortgage industry is in severe trouble. If the financial bleeding is not stopped soon, a massive unparalleled economic collapse will ensue.

We are glad to announce that refuge has been sought and found—a new source of funding. This funding will be used to eliminate housing and bank foreclosures and closings, respectively. Further, universal health care will be completely funded. The foreign and domestic debt will be eliminated, and the value of the dollar will be restored! Additionally, the infrastructure will be repaired.

Some gave all to defend and protect America! Now we are asking that all give some. Our country must be helped now!—If, it is worth saving? We cannot ask our country for help if we are not willing to help our own country. If we all work together, we can save America Now! Right now! Today! This day! Save America Now! Save America Now! Save America Now!

[California's \$20 billion budget shortfall can be solved very quickly!]

July 7, 2008

To: All Who Love America

[A NEW SOURCE OF FUNDING HAS BEEN IDENTIFIED!]

We the people of these United States of America can save America today!-- If we all work together, with the same goal in mind. With the axiom some were required to give all, on the other hand all should be required to give some. If we believe in this and are willing to work together, then we can achieve all goals!

*2nd Chronicles 7:14 (To be interpreted) states:
"If my people who are called by my name will humble themselves, and pray, and seek My face, and turn from their wicked ways, then I will hear from heaven, and forgive their sin and heal their land.*

America has experienced a second terrorist attack since 911! The damage that was done by the second attack is immeasurably greater than the first! The second attack was a "stealth" attack--It was the equivalent of an 1,000 foot "financial terrorism tsunami!" The damage that was done to the economy is being felt in banking, the stock market, declining value of the dollar, energy prices, food prices, many other consumer goods pricing, job losses, purchasing power declines, and nearly every other aspect of the economic landscape--the depth and extent of the economic crisis is so massive that it is nearly unchartable! If this situation is not addressed immediately and with unerring, purposeful clarity, and precision all will be lost, and it will take years and wreak untold misery to US citizens and residents before the economic ship of state can be "unsubmerged" and righted.

The main fulcrum of criticality is the enormous need for a source of massive and new funding. As we used to say in the old country, "kine angst"—do not worry for a new source of funding has been identified.

This is what this new source of funding will do:

1. *Eliminate the need for new taxes.*
2. *End layoffs and reduce unemployment levels to nil or negligible—literally labor will have to be imported in order to meet the demand.*
3. *End budget and program cuts except to "trim the fat", and actually allow for funding of new programs such as universal health care--\$400+ billion dollars for this purpose alone.*
4. *Eliminate the need for borrowing.*
5. *Pay off all the domestic and foreign debt.*
6. *Restore the full value of the dollar.*
7. *One trillion dollars will be generated to solve the housing and foreclosure crisis (es).*
8. *1.6 Trillion dollars will be generated to solve the rebuilding of the infrastructure crisis.*
9. *Most astoundingly, funds generated from the new source of funding will be invested so that additional funds will be available to specifically target under funded programs, rainy day needs such as natural disasters, and other emerging funding needs so that borrowing to meet needs will be a thing of the past.*

We must never let the ultimate sacrifices that our brave men and women of the armed forces have given to protect America and our way of life be dishonored! Therefore, we must all work together to save America; if, America is worth saving? Since America is worth saving, we must Save America Now! Save America Now!

[Immediate action is required because the economic crisis is far, far, far worse than it is prudent to describe publicly!]

Sincerely,

William Daniel, Ph.D., Founder, Concerned Citizens of Greater Sacramento
