

## Annual Report of the UC Davis Emeriti Association Video Records Committee Academic Year, 2012/2013

As of June 1, 2013

The video records committee has completed 18 interviews of 19 emeriti faculty or staff. During the month of June, three additional interviews of five emeriti faculty or staff are scheduled.

Recording interviews of 24 individuals is close to the average over the history of the project, but far short of the goal for our committee of 50 to 60 interviews per year. Hopefully, during the academic year 2013/14, we will be able to increase the number of interviews to accomplish this goal. We are currently negotiating schedules for an additional five individuals.

With the ongoing effort by Verne Mendel, we have nearly completed production of DVDs for the entire collection of videos. We expect to have the entire collection archived in the Shields Library special collections in the near future.

At the same time, we expect to have the full collection uploaded at DCTV and available for streaming on their website.

Below you will find the list of individuals interviewed for this academic year.
