

Annual Report of the UC Davis Emeriti Association Video Records Committee Academic Year, 2013/2014

As of June 3, 2014, the video records committee has completed 19 interviews of emeriti, faculty or staff. The average number of interviews recorded over the history of the project is 24 so we are close to that number, but far short of the goal for our committee of 50 to 60 interviews per year. Hopefully, during the academic year 2014-15, we will be able to increase the number of interviews to more nearly approach this goal. At present, only one candidate is scheduled for the fall, but others have been contacted and may yet settle on a date. A few additional interviews could take place over the summer if opportunities arise and if videographers are available.

Verne Mendel has completed production of DVDs for the entire collection of videos. Remaining is the task of reconciling all of the collection, library, DCTV and our own studio collection to assure they are all as complete as possible.

At the same time, the full collection has been uploaded at DCTV but not all interviews are available for streaming. We will continue striving to have them all available for streaming on their website ASAP.

With the newly-developed Emeriti Association Website, we now need to develop its full potential for the Video Records page. This will require protocols for keeping the lists of interviews up to date and linked to DCTV and Library collections, Memorial links need to be posted in a timely fashion and TV broadcast schedules provided. Any input from anyone interested in this process will be welcomed. There may be other information that should be linked or posted on our page. Let us know if you have suggestions.

Below you will find the list of individuals interviewed for this academic year.
