We have completed 17 interviews since June 2017 (listed in the Appendix below) and have three interviews scheduled for the rest of this month, one of which is with three interviewees. The annual average is 18/19 interviews per year.

We now have uploaded 466 interviews to the University video channel. We essentially have abandoned using DVDs, except on request, in favor of web only access.

With an outstanding effort by Bob Rucker and the communications committee, progress is being made toward the goal of increasing the public visibility of the interview videos through the Retiree Center newsletter, the UCDEA website/VRC webpage and other media. Increased ease of accessibility to the interviews on the ucdavis.video website is also progressing.

As always, we are very interested in suggestions for interviewees and committee members.

Thank you
Joel Dobris
Bill Breidenbach
