

Annual Report of the UC Davis Emeriti Association Video Records Committee
Academic Year 2016-17

June 8, 2017

Since our last report the video records committee has completed 12 interviews of emeriti, faculty or staff (details in table below). This number is less than last year even though the committee has been expanded to ensure representation across the campus community (the current composition of the committee is detailed below).

We have continued our efforts in collaboration with Academic Technical Services (ATS) in our effort to make all of our interviews accessible on the UC Davis Academic channel. We finally completed all of the metadata entries and conversion of all videos to MP4 format. ATS has completed testing the uploads and are now uploading 438 interviews with metadata to their final Web home. We will provide you with the link to the collection as soon as that is completed.

Last year we endured a number of equipment and software challenges requiring a number of computer component and software upgrades or acquisitions. We have new equipment and software ,thanks to Rich Engel and Alumni Relations, and a new set, thanks to Jim MacDonald

Committee members who served all or part of the year

Gary Carlson	School of Veterinary Medicine
Fitzroy Curry	School of Medicine
Ted Hillyer	Staff retiree
Jim Grieshop	Department of Human Ecology
Mel George	CAES Plant Sciences
Jerry Hedrick	CAES Animal Sciences
